# Bakery plans more South Florida eateries

South Florida Business Journal

A 115-year-old bakery may open as many as four locations in South Florida during the first quarter, said the construction firm it hired to build them.

**RCC Associates** said it has delivered the second U.S. location for French-owned Paul Fresh Bakery Café at Aventura Mall this week. The company also said it has assignments to provide total buildout services for locations planned at The Falls in south Miami-Dade County, Sawgrass Mills in Sunrise and the Downtown at The Gardens mall in Palm Beach Gardens.

The Deerfield Beach-based general contractor said U.S. Paul locations are typically 1,800 to 2,000 square feet. The Sawgrass location, in addition to the storefront, is also to feature a 1,500-square-foot kiosk in the food court.

RCC said it completed the first U.S. Paul location at 14861 Biscayne Blvd., in North Miami, in February.

The bakery has 240 locations in France. In addition to bread, croissants, pastries, cakes and desserts, the company also sells snacks and sandwiches made to order.
